

STOCK NOTES.

The Elko (Nev.) Independent says "gentle spring" has arrived.

The cattle inspectors have been doing good work through Colorado this winter.

Colorado papers say that winter has broken and cattle are looking remarkably well.

Buyers of young cattle are swarming in Utah and that grade are bringing excellent prices.

The Hand Spring Ranch and stock, near Las Animas, Col., has been sold by P. G. Scott for \$25,000.

The spring round-up will commence in Idaho about the first of April. So says the Darlington Transporter.

Governor Pierce, of Dakota, will engage in the stock business when relieved of official duties by the new administration.

The Raton Comet says that the range cattle in northern New Mexico are in splendid condition, and that the loss this year will be nothing to speak of.

A Colorado breeder of Herefords claims that he has no trouble in selling all the high grade yearling white-faced bulls he has to spare this season at \$125 each.

Six thousand dollars worth of estrays have been picked up by the Inspector of the Cherokee Strip Live Stock Association, at Kansas City stock yards, this season.

Nevada stock growers are shipping a great many fat beeves to San Francisco this spring. They claim that the stock done better last winter than any previous one.

The Del Norte (Col.) Prospector says the very warm weather for the past month, has caused some alarm among the stockmen lest the hay-fed beef, now on hand, will find no market.

The Albuquerque Journal says that there has been 11,000 head of cattle put on the range in Bernalillo county within the last sixty days, and that the new grass is coming very fast.

The Montana Stock Growers Association have employed a veterinary surgeon to be stationed with headquarters, at Glendive. He will look after their interests and quarantine diseased cattle, etc.

The Texas Stockman says that there will be a demand northwest, for 250,000 young steers to restock the ranges that have been to a great extent depleted by losses, and by beef shipments. With trail and rail closed against Texas, where are they to come from.

From the Silver City (N.M.) Sentinel we learn that at the recent sale there, of blooded stock, by Leonard Bros., that John Brockman paid \$5,000 for six bulls and one Galloway cow. A. E. Head also purchased a carload of cross-bred Galloway and Shorthorn bulls.

Dodge City, Ks., Cowboy: The weather during the past two weeks has been warm and summer-like. Under its influence cattle are recuperating with wonderful rapidity. The winter losses were much less than was supposed by many. Cattlemen are by no means discouraged.

It is rumored that a contract has been made with the Chicago firm of P. D. Armour & Co., by the British government, for the supply of its troops now on duty in the Sudan, with 5,000,000 cans of fresh and corned beef. This will take about 70,000 head of cattle and make an appreciable difference in our market quotations.

The bull season is at hand and stockmen should remember that it is a short sighted policy to stint the supply of bulls on the range. Calves cannot be had without bulls. The better the cows are served the greater the per cent. of calves. That supplying bulls for a large range is quite a tax we are aware, but is it not better for cattle owners to spend a little more in this direction and get an increased per cent. of calves, than to cut down the bull account and gather but half a crop of calves?
